

Welcome back to RETROVET project!

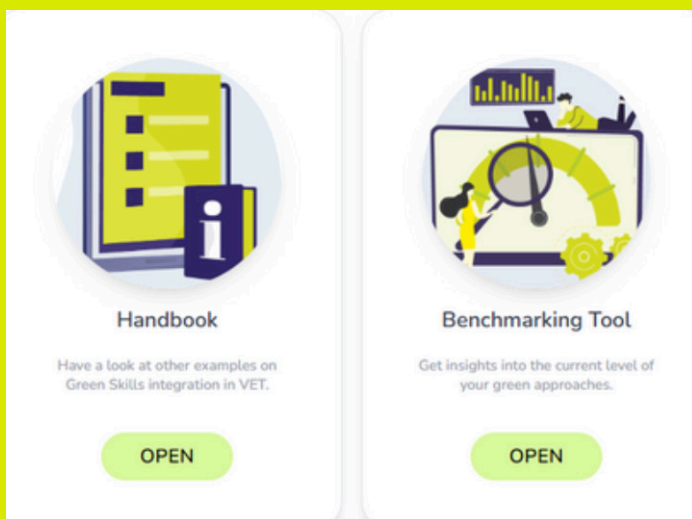

Let us update you about its progress. The following results are ready:

- Result No.1, the **Best Practice Handbook on Green Skills integration in VET**
- Result No.2, the **Benchmarking Tool**

You can find the final versions **here**:

Next steps

The partners will proceed with the piloting activities and will test the **Results No.1 and No.2**. The piloting activities will involve **trainers, practionners, learners, managers and leaders** from all the partner countries **Germany, Poland, Estonia, Italy, Cyprus, Spain and Portugal**.

2nd TPM in Turin

On **16th of December** the partners met in **Turin, Italy**. The focus of the meeting was to monitor the status of work and the progress of activities for the development of the first results of this project.

LTTA in Lisbon

From **27th to 31st of March** the consortium met in **Lisbon, Portugal** where **Mindshift** welcomed us. During the training, we learnt about the **green elements: green strategy, green approach and green skills and knowledge**. We discussed how these elements are directly linked to the work of VET trainers and how it influences them and their competences. Also, we discussed the structure of the **RetroVET Facilitator course** and its content. Furthermore, we provided clarifications on piloting activities and covered Green Elements in VET. Moreover, **CWEP** had the opportunity to explain us how they will develop the **Matching Tool** and its functionality and showed us the structure of the **e-Course**.
